ROMACT

Evidence-based support to local & national authorities

ROMACT reports and guides are shared and debated with local, national and European stakeholders, including mayors, associations of municipalities, ministries and European Commission representatives

In the period November 2020 - January 2021, ROMACT Programme experts conducted a study in order to outline the problems of children left behind in the municipalities it covers in Bulgaria.

Guide on Social Housing Allocation Criteria

CRITERII DE ATRIBUIRE A LOCUINTELOR SOCIALE
GHID pentru autorități publice locale

This Guide is based on continuous needs assessments in ROMACT municipalities in Romania.

The report also contains a number of specific recommendations to various stakeholders - parents, guardians and relevant institutions – aiming at minimizing the negative consequences on the left-behind children.

It supports Romanian local authorities in better understanding the social housing allocation methodology promoting the prevention of discriminatory allocation practices.

It combines both legal and social approaches and exemplifies potential restrictive criteria as well as criteria that are accessible and already used by some municipalities.

ROMACT

Evidence-based support to the local & national authorities

Toolkit: Possible solutions for informal settlements

This Toolkit is dedicated to local public authorities in Romania who decide to enter in the process of legalizing these types of settlements and to design development projects together with the community.

The toolkit addresses issues such as the steps to be taken, the analysis of informal settlements, the demarche for legalization and the local development planning. The local team can easily identify the tools it needs from the toolkit, as appropriate.

Guide on local information & awareness raising campaigns on the protection of children with parents going to work abroad

Fundamental rights of children left at home, such as the right to family and protection, the right to education, leisure, play and the right to opinion and participation are likely to be at risk.

This guide is intended for local specialists in Romania, who identify the need to organise such a campaign, taking into account the steps to be followed when it comes to public sector action.
